Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

VOLUME XVII

1892
BLOOMINGTON, INDIANA
PUBLISHED BY THE EDITORS

TRACY, GIBBS
AND COMPANY,
PRINTERS, MADISON WIS.

TABLE OF CONTENTS.

On the relation of certain fall to spring blossoming plants. I, II (plates I, II.) *Aug. F. Foerste.* 1, 233

The effects of mechanical movement upon the growth of certain lower organisms. . . *H. L. Russell.* 8

Noteworthy anatomical and physiological researches 15, 54, 85, 118, 157

- Apical areas of seed plants *Conway MacMillan.*
- Effects of parasitism of Ustilago antherarum. *Conway MacMillan.*
- Behavior of the pollen tube of gymnosperms.—*R.*
- Observations on the protection of buds in the tropics *Conway MacMillan.*
- Vitality of ferns . . . . *Theo. Holm.*
- Anatomy of Carices . . . *Theo. Holm.*
- Ovular structure of Casuarina suberosa . . *Conway MacMillan.*
- A contribution to the knowledge of nuclear mechanics in the sexual and other reproductive cells of plants . . . . *Conway MacMillan.*
- Burnt spots on leaves . . . *Theo. Holm.*
- The stem and leaf of mosses . *Rodney H. True.*
- Anatomy of the stolons of Gramineæ *Theo. Holm.*
- Studies upon germination . . *Theo. Holm.*
- Gases in massive organs . *Conway MacMillan.*
- Effects of electricity on growth . *George E. Stone.*
- Vegetation of the paramos of Venezuela *Theo. Holm.*

The seed coats of Malvaceæ (plate III) *P. H. Rolfs.* 33

Evolution in methods of pollination *Alice Carter.* 40, 72

Mt. Kataadn and its flora . *F. Lamson Scribner.* 46

Flowers and insects. VII, VIII, IX *Charles Robertson.* 65, 173, 269

F. W. Anderson, Sc. D. (portrait, plate IV) *F. D. Kelsey.* 78
Enumeration of the Kansas mosses . . . . .
F. Ranauld and *J. Cardot.* 81
A simple self-registering auxanometer (plate V) . .
George E. Stone. 105
Suggestions on the classification of the Metaphyta .
Conway MacMillan. 108
Some fungi common to wild and cultivated plants .
Byron D. Halsted. 113
Sereno Watson (portrait, plate VI) *John M. Coulter.* 137
On the archegonium and apical growth of the stem in Tsuga Canadensis and Pinus sylvestris (plate VIII)
D. M. Mottier. 141
Germination of the teleutospores of Ravenelia cassiæcola (plates IX and X) . . . *B. M. Duggar.* 144
Notes on Carex. XVI . . . *L. H. Bailey.* 148
An automatic device for rolling culture tubes of agar agar (plate XI) . . *George F. Atkinson.* 154
On nomenclature . . . . *Sereno Watson.* 169
The North American Lejeuneæ . . *F. Stephani.* 170
The identification of trees in winter (plates XII and XIII)
Aug. F. Foerste. 180
Two new genera of Hyphomycetes (illust.) *A. P. Morgan.* 190
On the genus Lindbladia . . *George A. Rex.* 201
The tendrils of Passiflora cærulea (plate XIV) . .
D. T. McDougal. 205
An apparatus for determining the periodicity of root-pressure (plate XV) . . . *M. B. Thomas.* 212
On the apical growth of the stem and the development of the sporangium of Botrychium Virginianum (plate XVI) . . . . . *C. L. Holtzman.* 214
Noteworthy systematic and distributional researches . 218
Recent work in systematic hepaticology . .
L. M. Underwood.
The psammophilous flora of Denmark *Theo. Holm.*
Notes on the flora of Chicago and vicinity *E. J. Hill.* 246

The plea of expediency . . . *N. L. Britton.* 252
Botanical papers read before Section F, A. A. A. S., Rochester meeting 276
Proceedings of the Botanical Club, A. A. A. S. . . 285
Papers presented to the Botanical Club, A. A. A. S. . 291
A preliminary comparison of the hepatic flora of boreal and sub-boreal regions . *Lucien M. Underwood.* 305
Bacterial investigations of the sea and its floor . . *H. L. Russell.* 312
A peculiar case of plant dissemination . . . . *Edward L. Berthoud.* 321
Notes on certain species of Erythronium *E. B. Knerr.* 326
The International Congress at Genoa . . . . *Lucien M. Underwood.* 341
Some new North American plants. I . . . . . *John M. Coulter* and *E. M. Fisher.* 348
Development of the flower and embryo-sac in Aster and Solidago (plates XIX and XX) *George W. Martin.* 353, 406
A study of some anatomical characters of North American Gramineæ (plate XXI) . . *Theo. Holm.* 358
Popular names of American plants *Fanny D. Bergen.* 363
On the Myxobacteriaceæ, a new order of Schizomycetes (plates XXII–XXV) . . . *Roland Thaxter.* 389
A vacation in the Hawaiian Islands . . . . *Douglas Houghton Campbell.* 411

BRIEFER ARTICLES—

Notes on pollination . . . . . *Alice Carter.* 19
Cryptomitrium tenerum . . . . . *F. Stephani.* 58
Pyrus Ioensis . . . . . *L. H. Bailey.* 60
Cleistogamy in the genus Polygonum . . . *Stanley Coulter.* 91
Cultivating the ascosporous form of yeast . . *J. C. Arthur.* 92
The identity of Asclepias stenophylla and Acerates auriculata *John M. Holzinger.* 124, 160
Bartram's Oak . . . . . *A. Commons.* 125
The spines of Cenchrus tribuloides (illust.) . . *E. E. Gayle.* 125
The embryo-sac of the Metaspermæ . . . *Conway MacMillan.* 161
A bit of flora of Central Arizona . . . . *J. W. Toumey.* 162
The chemical composition of the nectar of Poinsettia . *W. E. Stone.* 192
Notes on Asclepias glaucescens and A. elata . . . *J. N Rose.* 193
Some depauperate grasses (illust.) . . . . *A. S. Hitchcock.* 194

Living fossils . . . . . *Erwin H. Barbour.* 223
On Amarantus crassipes (plate XVII) . . . *John M. Holzinger.* 254
Interesting variation of the strawberry leaf (illust.) *Mrs. W. A. Kellerman.* 257
On the development of the embryo-sac of Arisæma triphyllum (plate XVIII). . . . . *David M. Mottier.* 258
Polygonum persicarioides HBK. . . . *J. M. Holzinger.* 295
New mosses of North America . . *F. Renauld* and *J. Cardot.* 295
Notes upon Daucus Carota . . . . . *Chas. W. Hargitt.* 328
Cross and self-fertilization . . . . . *Minnie Reed.* 330
The systematic position of Entosthodon Bolanderi *John M. Holzinger.* 380
A probable new category of carnivorous plants . *Conway MacMillan.* 381
Carl Moritz Gottsche . . . . . *Lucien M. Underwood.* 417
An edible lichen not heretofore noted as such . *W. W. Calkins.* 418
A new Tabebuia from Mexico and Central Mexico (plate XXVI.) *J. N. Rose.* 418
The occasional cross . . . . . *Thomas Meehan.* 420
Sullivantia Hapemani . . . . . *John M. Coulter.* 421

EDITORIAL—

Botanical Congress at the World's Fair, 22.—German mycological works, 23.—International Congress of Botanists, 60.—Apparatus for vegetable physiology, 93.—Botany in Chicago University, 94.—Duty of botanists in reference to international congress, 128.—Division of section F of the A. A. A. S., 129.—Botanical authority, 164.—Rochester meeting of A. A. A. S., 224.—Criticism of Gazette and the Bulletin, 224.—Campbell's "Biological instruction in colleges," 260.—Results at Rochester (nomenclature agreement, separate section of botany, action of Botanical Club with reference to an International Congress in connection with the Columbian Exposition), 297.—Live botanists, 383.—Independent publications, 422.

CURRENT LITERATURE—

23, 95, 129, 195, 225, 262, 299, 331, 384, 423.

For titles see Index, under "Reviews."

OPEN LETTERS—

A section of botany in the American Association *Byron D. Halsted.* 25
Misconception of botanical homologies . . *Conway MacMillan.* 27
The Baltimore oriole mutilating flowers . . . *W. J. Beal.* 27
Suggested by Kuntze's Revisio Generum Plantarum *Erwin F. Smith.* 62
The new herbarium pest . . . . . *H. E. Hasse.* 99
The pollination of Orchis spectabilis . . . *Jane H. Newell.* 165
A botanical congress and nomenclature . . . *L. H. Dewey.* 190
Pink and yellow pond-lilies . . . . . *W. W. Bailey.* 229
Dr. J. P. Campbell's "Biological Instruction" *Conway MacMillan.* 301
Who are biologists? . . . . . *D. P. Penhallow.* 336
Variations in the strawberry leaf . . . . *C. B. Atwell.* 336
The botanical congress . . . . . *L. M. Underwood.* 425

NOTES AND NEWS—

28, 63, 99, 132, 166, 200, 229, 266, 302, 337, 386, 426.
